

TV WALL MOUNT CATALOGUE

COMPANY BACKGROUND

OMP was founded in 2008 by three partners with the same vision to become a leading global supplier of consumer electronic accessories. Experts in their own individual fields, the partners of OMP have combined their individual strengths in the knowledge, experience and expertise of their own products and markets and produced a global brand.

We can offer you a one stop shop solution for all your consumer electronic accessory needs.

- Wealth of knowledge, experience & expertise
- Research, design & development facilities
- Superior customer service & satisfaction
- Extensive product portfolio
- Direct contact & control with manufacturing operations
- Merchandising and marketing support

Combined resources provide access to a great pool of research, design & development facilities. This ensures the most innovative, technically advanced and the best quality products designed and developed for the consumer market.

Superior customer service & satisfaction:

OMP's philosophy is simple - to provide the consumer with the highest possible quality and service at a fair and affordable price. Sales and service teams in each geographical territory are able to provide a wealth of product and industry knowledge pre and post sales to support the extensive product portfolio.

Packaging:

All products are packaged in shelf ready, self sell, full colour retail packaging for maximum impact at Point of Sale. All packaging comes complete with easy to follow installation and user instructions for quick and simple installation.

Brand alignment:

For consistency throughout the OMP brand and for correct up to date information we strongly suggest that you use the content featured in this catalogue.

This can be copied and used on all your own personal catalogues, flyers, web and any promotional needs when promoting OMP branded products.

All our mounts are VESA compliant, adhering to international standards.

BRACKET TYPE OVERVIEW

Fixed models

The simplest TV mount solution is the "Fixed". Fixed Wall Mounts are sturdy and strong, but offer no screen movement. Fixed TV Mounts will not move in any direction up or down, left or right.

You can't adjust the screen angle according to your sitting, slouching or laying position. This type of bracket is ideal for a no fuss application especially for a neat and tidy cables.

Tilt models

Tilt TV Wall Mounts are very similar to fixed brackets but they allow the TV to Tilt. Depending on the model of TV mount will determine the tilt adjustment angle.

Choosing a tilt bracket gives you the flexibility to change your TV position providing the optimum view of the TV. This can benefit viewing angles if the TV is mounted high on a wall or if you are using your TV in a bedroom when the viewing angle is lower.

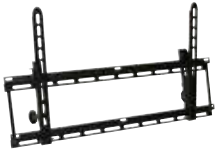

Cantilever models

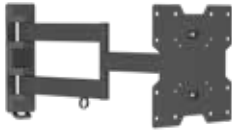

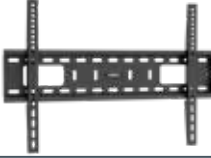

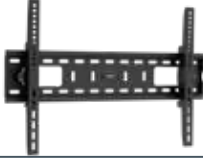

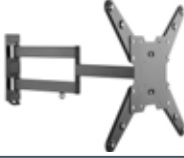

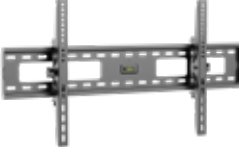

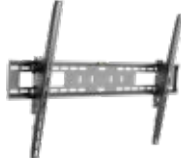

Cantilever TV Wall Mounts are sometimes called full motion or articulating TV mounts. This is because they do just that!

Cantilever TV mounts can benefit all applications and provide the most versatility. They allow the TV to extend, tilt and swivel. Accessing your TV's ports and cables are also easier with cantilever brackets.
